

REFLECTIONS

The following statements are personal reflections on the impact of the wisdom gained from the Authors of this book, who have been guiding our group for a considerable period of time. They are helping us to transform into a community that supports the expression of our higher selves. Our mission in working with them has been to shed light on this pivotal phase in the evolution of our planet. These statements are shared with you, the reader, as a testimony to the impact of Their guidance. Our group is responsible for the publication of this book and the content of the Tree of Light website [atreeoflight.org].

“The living experience of being part of the community of A Tree of Light has been a process of embodying the truth of our higher self—no longer as a potential contacted in rare transcendent moments or in deep meditation, but as a reality that lives in and through us as a group. Through experience, we are realizing that a world founded on spiritual light, love, and will to serve the good of the whole is possible.”

“Contributing to the unfoldment of a new age brings a deep sense of purpose. The realization that peace and harmony can supersede conflict, war, anger, and hatred shines a very bright light on the future for humanity.”

“Knowing what it is like to live and work in soul consciousness, we can envision the potential of a new humanity and a new civilization. A deep sense of connectedness around a higher purpose has evolved into an experience of unity that nourishes trust, love, and joy.”

“Being part of this group experiment has been transformational. I am more sensitive to the cry of humanity, and I can hear the song of an intelligent consciousness arising from the awakening soul of humanity. Through the wisdom that informs this group, I have learned that reaching out toward beings in subtler realms attracts love and wisdom that guides us to make more intelligent choices.”

“People from all over the world - mostly strangers to one another- came together online in a spirit of goodwill. Amazingly, over the years that goodwill has deepened into trust and love. Truly caring about folks I’ve never met on the physical plane is a wonderful experience of soul consciousness, which allows compassion to expand to include all denizens of our beautiful planet. This, along with the experience of working with our Elders in the Kingdom of Souls, brings the peace that passes all understanding. And that generates more energy to do the work.”

“The living experience of working with a group based in soul consciousness, where group projects flow naturally and every talent, perspective and effort is mutually respected and valued by all, gives me a knowing that a new world founded on love, peace and harmony can be created. It is not just an ideal, it is real.”

“Being part of a group soul has been the fulfillment of my destiny in this incarnation. The joining of hearts; the outpouring of love; the recognition of each other on a magnetic soul level; the total commitment and service to the Plan; the dedicated attention to guidance from the Hierarchy, our Elders; the explosive expansion of consciousness and the realization of our soul’s mission to build a bridge between the human and spiritual Kingdoms....There is no greater joy.”

“As seekers of truth dedicated to serving the plan of evolution, we aim to *see* beyond the limited view of the individual personality to the broader, more inclusive view of the conscious soul. Serving in response to an opportunity

provided by spiritual Elders, we have grown in love. I believe that service to the whole will become the purpose of life for growing numbers of people and as this occurs, humanity will take a tremendous step forward.”

“Like so many of us these days, I’ve had moments of sadness, anxiety, and fear about our world. As part of this group, I have received reassuring knowledge and guidance about what is happening in terms of the evolution of humanity. A New World is being revealed.”

“Working in cooperation with spiritual Elders, we have willingly assumed responsibility to play a part in fulfilling an evolutionary purpose. As this purpose has unfolded in a spirit of selfless service, we have experienced the joy of shared commitment to higher truth, unconditional love, and an ever-expanding sense of oneness.”

"The teachings received by this group confirm that a new dimension of humanity is emerging and that has been my experience. I have followed the route described in *Unveiling the Spiritual Path* and found that this book answers questions that I had pondered for many years and provides hope for the future."

"In this group of dedicated disciples I have found purpose, meaning, camaraderie and the unconditional love of dozens of other like-minded souls scattered around the world, as well as a Divine Connection with those in higher realms Who have been guiding our every step along the way. This group, this experience has been the capstone of my life. Words cannot express the gratitude that I feel for the honor and privilege of being a part of it."
