*The Reality
of the Soul*

Words from Spiritual Elders

Phoenix Letters # 4

*A*s this world cycle comes to a close, the highest priority for spiritual workers is to bear in mind the distinction between the Real and the unreal.

*W*hoever has consciously established this capacity will be a light-bearer for many. Whoever can hold this focus throughout the time of chaos will receive a great inflow of light from Our realm.

*I*t is essential to keep in mind that the foundations of the new civilization are being laid in the consciousness of souls who perceive the light of the new era and find their way to the path of enlightenment.

At this crucial juncture in planetary history, every incarnate soul is being offered choices at every moment: to turn an ear toward one's brother or to turn away; to hear the desperate cry for justice or to muffle it; to acknowledge the deteriorating state of the planet or to deny facts that point to the culmination of a cycle of Earth's life.

For disciples, there is the added responsibility of choosing rightly—not only for the sake of your own souls but for the sake of those whom you can serve.

***Y**ou are alive at a time when the concept of interconnectedness has been hammered home by diverse branches of physics and metaphysics.*

***T**he dawning spiritual reality is that the human soul is a ‘unit of consciousness’ existing within a sea of consciousness.*

This sea is churning wildly at present and rising to the top are the ‘bottom-feeders’—those who act with reckless disregard for other human beings and with no sense of accountability.

They are revealing what lies on the bottom of the ocean of human consciousness so that all may see and co-measure their lives.

They are also clearing a path for a new accounting system in the coming era when accountability for one’s actions will become a baseline norm.

*M*otives will no longer be hidden by dense forms. When the churning sea settles down, those units of consciousness with a demonstrated capacity to love and serve humanity will rise to the surface by dint of the light radiating from the soul's subtle body.

The predominant fact of the coming age is the reality of the Soul. In the fullness of its manifestation, the soul will become a divine instrument for redeeming the lesser self and radiating the light, love, and power of divinity.

It is the Soul that will bridge the gap between our kingdom and yours and thus mend the tapestry of the gods.

It is the radiant soul that will cast away the shadows of the human race and carve, out of its own substance, the pathway into Our kingdom, thus precipitating the new heaven and earth.

The Elders tell us that this world cycle is coming to an end. They advise us to always keep in mind the distinction between the Real and the unreal as we navigate through these times.

Q. What do we see in this world as the Real and the unreal?

The image is a composite. The upper portion shows a view of Earth from space, with the planet's curvature and atmosphere visible against a dark, star-filled background. The lower portion shows a city skyline at sunset or sunrise, with buildings silhouetted against a bright, orange and yellow sky. The overall mood is contemplative and urgent.

We are told that every incarnate human soul at this turning point in planetary history, is being offered choices at every moment:

We can turn toward our brothers or turn away; we can hear the cry for justice or muffle it; we can acknowledge the deteriorating state of the planet or deny the facts pointing to the culmination of a cycle of Earth's life.

Q. The life-altering choices we face today are becoming more apparent to us. What are the major choices we face today?

We are told that it is essential to keep in mind that the foundations of the new civilization are being laid, even now, in those who can perceive the Light and are finding the Way.

Q. What signs can we see of the foundations being laid for the new civilization? What changes do we see in humanity today?

It is said that those who act without conscience are revealing the basest level of human behavior so that all may realize the absolute necessity for change.

This revelation is clearing a path for a new system of accountability in the new era, when all will be accountable for their actions.

Q. Can we envision what kind of world it will be when everyone takes responsibility for what they do? What steps do we need to take to get there?

We'd like to end this part of the program with words from the Elders:

“We can discern those who are approaching the next portal of initiation, and to them We extend a helping hand. In the future, the lines of light streaming from Our kingdom into yours and spreading out like rivers with their tributaries into all the lesser kingdoms, will be visible. The lines now forming are also bearers of the Love of the greater Ashram of the Christ, of which We are a part. As the roiling sea calms down, those dedicated to the purpose of the Planetary Logos (the Lord of our World) will find each other and together we will prepare the soil for the Christ's return.”
