

A Realm of Love and Wisdom

The Spiritual Hierarchy is a body of living Souls who, at each rung of the ladder of ascent, radiate ever more powerfully the love, light and will to accomplish the evolutionary goal of the Lord of the World. ~29 Nov 2019~

The Kingdom of God is a realm of consciousness permeated by divine purpose executed in and through divine love. Within this realm, there are gradations of comprehension of higher purpose and of cosmic and planetary forces that will foster its fulfillment. There are also different degrees of responsibility for its manifestation. But there are no divisions in this realm. Those who enter from the human realm merge their energies within this planetary 'Center of all Love,' from which the course of evolution unfolds. It is the blending and fusing of energies of the 4th (human) and 5th (spiritual) kingdoms that will give rise to a new civilization and culture. This has already begun. We have evolved through the human realm, so there is nothing in your realm that is foreign to us. We are your elder brothers and sisters spiritually, in every sense. ~22 Feb 2019~

In this dawn of the new era, we welcome into our midst those who have eyes to see and ears to hear—those whose hearts have revealed to them the truth that We exist and are approaching closer to humanity. You will first encounter this truth as a living reality within the depths of your own souls. It will become an outer manifestation in time, as the Hierarchy is able to extend itself further into human living. *~15 Sept 2018~*

Throughout the ages, the vast majority of human beings have believed in a hierarchy of spiritual lives. They have intuitively grasped the idea of a progression of increasingly perfected souls, beings beyond any they could imagine on the plane of human existence. For several millennia, the figures of Krishna, Buddha, Moses, Christ, Mohammed and others have remained ingrained in human consciousness, even throughout the modern age as the gap between human beings and these seemingly ‘super-natural’ figures has grown wider.

The hierarchy that will soon emerge into human awareness is governed by spiritual law. It is a hierarchy of those who know the Mind of God—the planetary Logos—and who have sacrificed everything of a personal nature to fulfill the purpose held in this mind for the evolution of our planet. It is a hierarchy based on the accumulation of wisdom, divine perception, and love, composed of souls at different stages of evolution in regard to alignment with the will of the Logos. *~21 June 2019~*

In the realm of the Soul, there is no separation. Within the Hierarchy, there is no separation. We are indivisibly one in consciousness and purpose. When formulating the goals that constitute milestones in the evolutionary plan, or devising the approach to attaining these goals, the fire of love reverberates through every Being within the Hierarchy, pervading the whole. The only separation, if one could call it that, is a ‘division of labor’ when it

comes to the oversight and execution of responsibilities leading toward the manifestation of the Plan.

The strength and power of the Ashram derive from the fortress to which you give the name ‘unity.’ The word ‘inseparability’ is closer to the reality, as it implies the indestructible relationship of the parts to the whole. The functional unity of members of the Hierarchy can be likened to the workings of the axons and dendrites of the brain, with divine love plugging the synapses and enfolding the entire circuitry.

We are instruments of Divine Purpose, no more and no less. So it is that when an aspect of the Plan is realized, a river of bliss flows through Our ranks. Every time an idea in the Mind of the Logos is effectively transmitted by Us and made manifest in the human realm, with subsequent outcroppings in the lesser realms of Earth’s life, We rejoice. It signifies that the purpose for which the Logos took incarnation on this globe of extreme density is growing a step closer to realization. *~6 August 2020~*

There should be nothing fearsome to you about the prospect of dwelling on a plane of greater subtlety and refinement. On our plane there is beauty, truth and goodness of an intensity that you may dream about but whose reality you can scarcely fathom. We exist in a realm of shimmering beauty and unobstructed harmony, suffused by the love of the Creator and the music of the spheres. Our mission is to uplift our human brethren entrapped in the density of matter, so they may rise into a light-filled world and from there, by our side, serve the Plan. *~18 Oct 2019~*

As humanity enters this new cycle of planetary life it is important that you see Us as We are. The fact that we have traveled further on the Path of Return than you has several practical implications. As formulators of the divine plan, we see further into the future than you can. We are more

aligned with the will of the Father than you are. And we are closer to our Great Brother, the Christ, as we serve under His guidance, illumined by the immensity of His love and wisdom. And yet, as you learn to follow in our footsteps, the gap between us grows continually smaller. *~6 Feb 2020~*

The fifth kingdom in nature—the spiritual realm or kingdom—is undergirded by the Law of Love. It is the Heart Center of our planet. At this time, there is no higher vibration for human beings to aspire to than the vibration of Divine Love, for this vibration opens the portal to the new world. The soul that vibrates to the frequency of Divine Love is incapable of harm. It lives in constant awareness of the One Life manifesting through infinite forms, each one fulfilling a divine purpose, however seemingly small or insignificant. *~15 Nov 2019~*

In the minds of many esoteric students, the idea that Higher Beings will appear on earth to guide humanity remains either an abstraction or a distant possibility. Neither is correct. Such Beings will soon make themselves visible.

The Kingdom of Souls is the realm of perfected human souls and those who are approaching perfection. The awakening of the higher self leads inevitably to the spiritual path, by which humanity evolves, and ultimately leads into the Kingdom of Souls. Those who are consciously aligned with ‘the kingdom not of this world,’ as it used to be known, will remake the world of human living in the new era. *~27 March 2021~*

The Emergence of the Realm of the Soul

While humanity is focused on present catastrophes and impending disasters, shafts of light will appear as if ‘from nowhere.’ The ineffable beauty of this great explosion of light will signal an early stage of the Hierarchy’s emergence into the realm of visible form. It will mark the beginning of our withdrawal from the inner planes and the consolidation of our energies with yours.

This consolidation will manifest as radiant expressions of divine truths enwrapped in beauty. Later, these new energies will become even more alive as Presences increasingly emerge from behind the veil that has for eons separated our two realms. It will become evident to kindred souls that a higher force is entering the world, setting the stage for what is to come through cooperative endeavor between the human and spiritual realms. A subtle refinement of collective human consciousness has already begun.

~7 June 2019~

It must become widely understood that a new world is in the making. The growing prospect of this new world will relieve the deepening angst of humanity and begin to heal the wounds of the human soul. The new civilization will unfold under the reign of the Soul, with the externalization of the realm of the Soul. *~22 Nov 2019~*

To be alive in the world right now, to observe the further withering of the law with each new day, is to be tested to the core. The only ‘place’ for the

soul to look is inward and upward, where the Forces of Light are arrayed in preparation to re-enter the world. A steadfast inward gaze dispels all doubt, allowing the conscious soul to function in the world more effectively than ever before. The realization dawns that light is already breaking through in the guise of every individual who stands for truth in the light of their soul. This is our point of re-entry into the Earth. *~6 Oct 2017~*

The Great Shift is upon us now. You can surely sense the intensifying downpour of light, along with the slipping away of the world that was. Strive to uproot yourselves from the outer plane and enter our midst more intentionally. We are your shelter from the storm and the light on your Path. We walk with you, and we compose the song of the new earth with you. This reciprocal relationship holds the power to remake the world—to transform it into the longed-for ‘heaven on earth.’ *~12 Dec 2020~*

The defeat of superstition by the modern mind is nearly complete. Yet, this defeat has left a gaping wound in the human heart and soul.

Standing on the threshold of the new era, the most significant development from our perspective is the embryonic capacity of the human mind to reach beyond itself, via the Soul, to the plane of higher intuition. This is the level of awareness from which the new civilization will be built. For the first time in the evolution of our planet, the human and spiritual kingdoms will become linked directly, via conscious souls, without need of external intermediaries. *~31 May. 2019~*

We are heading into a thoroughly new stream of planetary life, which marks a radical departure from all that has come before. This is the outcome of the awakening of humanity and the response it is evoking from within the Spiritual Hierarchy. The living bridge of light being built between our two kingdoms will become the bedrock of the life of the new earth.
~23 April 2020~

It is important to be aware of the essential differences between humanity's past and present, since souls are now awakening at a higher turn of the evolutionary spiral. Coming into existence is a bridge of consciousness between the 4th (human) and 5th (spiritual) kingdoms that never existed before, except for a rare few highly evolved human beings in recent centuries. The spiritual realm is no longer completely severed from human life on this planet. The realms of humanity and divinity have begun to join in the restoration of the divine Plan. *~ 21 June 2019 ~*

From the time when the soul's light begins to pervade the consciousness of a disciple, the inner Ashram begins to impress upon the mind the outlines of the Plan for a given moment in history. This occurs according to the individual's capacity for absorption. Through the downpour of increasingly brighter shafts of light, the disciple is drawn into a living relationship with his or her Elders. As the capacity to assimilate higher energies develops, the individual's consciousness is directed less to the life of the persona and turns more toward the goals of the Plan. With that turning, the inflow of higher light intensifies. *~6 Dec 2019~*

In the new world of the Aquarian Age, everything will depend upon the free will of humanity. However, instead of exercising free will for personal ambition or material indulgences, a critical mass will have arrived at the point in evolution where they will choose to exercise their free will in service to the Common Good. This change will come about through a widespread shift in identity from the isolated human persona to the spark of light united with all other sparks; the cell within the body of God; the drop of divinity within the divine ocean of life. *~15 February 2019~*

The Christ as the World Teacher

Love is the portal of entry to the new world. The soul awakens in the heart, and begins to shine its light upon the mind of the seeker. As this light grows in intensity, it turns into the light of truth, almost indistinguishable from the light of love.

The Christ will return as the World Teacher to embody Truth. He will be recognized first by those in whom the fire of love has been ignited and who have learned the meaning of spiritual love. What does it mean to love, in the highest sense? It is to radiate the love of the divine Self. It is to transcend the lower self, consumed by incessant desires and personal ambitions, by turning that energy toward a greater good. It is to tap into the love of the realm of the Soul and transmit it into the world. *~29 Nov 2019~*

The idea conveyed in the Ageless Wisdom that Christ will return as the World Teacher, not as a savior, has been poorly understood. The significance is that this Great Being will be a spiritual teacher of and for

the entire world—not only for today’s Christians, not only for those who equate soul consciousness with Christ consciousness, but for every human being in whom the soul is stirring. The salience of the term World Teacher lies precisely in its universality. To be a teacher for the world means to teach all souls—from all nations, all religions, regions, and races—who have awakened to the true Self and are seeking to learn about the subtler reality they have begun to penetrate. ~29 Mar 2021~

The Christ will not return to Earth as the prophet of an age to come, but to affirm that the Kingdom of God is arising from within the human soul. It is due to the fact that a portion of humanity is awakening to its divine potential that the Christ is able to return to the peoples of Earth and assume the role of World Teacher.

The project of the World Teacher in the coming age could be summed up in a few words: to establish the fact that the human soul comes into incarnation to learn the realities of spiritual growth and evolution, in order to become a transformer of consciousness and life—starting with its own self. ~23 August 2019~

When the Christ returns as World Teacher, He will not suddenly remake the world as many would dearly hope. He will teach basic principles about the life of the soul, enabling the light of higher understanding to begin to permeate human awareness. How will this light be spread abroad? Through the living experience of every soul who treads the Path and can testify to the validity of the principles being taught.

The fundamental external change between present and future will be the environment of the new earth, which will be conducive to a more rapid unfoldment of soul qualities. In part, this will result from the reciprocal relationship between our two realms of life. The spiritual light filtering into

the new world will issue from the relationship being established between our kingdoms. ~6 Dec 2019~

The Christ is preparing to reappear in this maelstrom of human misery for a brief time. He will not be recognized by the entire human population, but by those equipped to recognize Him and His disciples. They will form the critical mass that will turn the tide of consciousness and open the door to the world where He will dwell among awakening humanity. ~13 Aug 2020~

Earth is being set on a new course to allow for a closer alignment with the evolutionary goals of the planetary Logos, the Lord of our world. A principal aspect of this new alignment is the transformation of humanity into a race with the capacity to fulfill its divine inheritance.

The Old Testament declares that human beings are “made in the image of God.” Although the actual meaning of those words has been profoundly misinterpreted and misunderstood, the notion that a human being could come to resemble the Deity who created him or her, and could thus by implication enter into relationship with the creator, struck a deep and lasting chord in the soul of humanity. A profound longing to discover the truth hidden in these enigmatic words has persisted within the race for eons, without the vaguest notion of how they could be realized. The great endowment of the modern wisdom teachings has been to explain how this can occur. The explanation will be validated by the appearance of the World Teacher. ~20 Aug 2020~
